

A better place to do business

Here's a common problem; you have people to see and business to do, but meeting in the heart of the city offers few locations that provide a suitable environment. In an age of true business mobility, the use of public areas, cafes and hotel lobbies are often the only option for offsite meetings and the travelling professional. Bureaux provides an alternative.

Bureaux is a stylish CBD business venue that offers conference facilities, superior meeting rooms and individual work stations. What makes the concept unique are the luxury lounge rooms, reference library and gourmet caf; all of which are available on demand and included in an affordable annual membership fee.

Bureaux is an opportunity to present your business in the right way and enjoy state-of-the-art facilities. From relaxation rooms to wireless Internet access, Bureaux creates a personalised and professional environment that is both affordable and impressive. Put simply, it's a better place to do business.

Bureaux Sydney is at 50 York Street and launching in Melbourne in March. Visit www.bureaux.net.au for a free trial offer.
