

Atdecs New Funky Wall Mount - The space saving flat panel display solution

Wall mountable display solution designed to save space in homes and commercial premises -- ideal for eye-level retail displays

The new Visidec Wall Mount flat panel display mount solution from Australian designer and manufacturer, Atdec Pty Limited, is the ideal space saving solution for home, retail, SOHO and commercial users alike. The wall mountable product can be used virtually anywhere, saving valuable desk and floor space.

It is so versatile you can use it virtually anywhere, said Atdecs Managing Director, Steve Crozier. Just affix it to a wall and you can have TV in the kitchen, bedroom or any other room of the home. Its ideal for retailers who want to display advertising messages at eye level without cluttering shelf space, or for mobile roadshows who need flexibility with their promotional monitors and stands. Schools can use Visidec Wall Mount where desk space is at a premium; so can call centres, internet cafes, banks, hotels and fast-food outlets. The list goes on, he said.

Its a simple design in polished silver which is fixed to a timber stud or masonry wall and is suitable for supporting displays up to 6kg in weight. The Visidec Wall Mount flat panel display system features an adjustable monitor mounting plate that suits 75mm x 75mm and 100mm x 100mm VESA-compliant Flat Panel display mounting interfaces. The mount offers an adjustable tilt of +/- 30 degrees, adjustable pan of +/- 30 degrees and portrait/landscape mode adjustment.

Quick and easy to install, it comes with hardware and as with all Atdec products, has a five-year warranty.

Atdec partners with most of the key AV organisations such as NEC, Hitachi, Fujitsu, Samsung, LG, BenQ, Sharp, Sony, Panasonic, Acer, Dell and IBM designing equipment to suit their individual products. These relationships and our own research keeps us informed of worldwide trends ensuring our products meet consumer demand and emerging technology requirements, said Mr Crozier.

Competitively priced at \$69.99 RRP, Visidec Wall Mount is available through leading information technology resellers and major commercial furniture companies such as Thinking Ergonomix and CEDIA members as well as retailers including Harvey Norman and Domayne. Atdecs Australian State distributors are: Ground Floor Marketing (Vic and Tas), Debetrek (Qld and NT), Sylex (WA), Greg North (SA) and Corporate Express; New Zealand distributors are Sylex and Metrolink.

About Atdec

Established in 1998, Atdec is an Australian enterprise that designs and manufactures visual display mounting systems for electronic units such as computer monitors, display monitors, flat screen technology and televisions. In its role as industry specialists, it provides product to a broad range of clients including: banking & finance, corporate, government, hospitality, information technology, medical & health care, retail & tourism and commercial furniture suppliers.
