

Brightmail and Voltage Security Partner to Deliver Award-Winning Anti-Spam with Breakthrough Secure Email

Voltage Security, Inc., (www.voltage.com), provider of secure multi-channel business communication solutions, and Brightmail, (www.brightmail.com), the leader in anti-spam protection, today announced a strategic alliance designed to bring business customers more innovative technologies that address increasing demands for better security in email infrastructure.

Our enterprise customers look to Brightmail to provide a safe and secure email environment. The market has been waiting for secure communication solutions with the breakthrough in usability and security that Voltage offers, said Enrique Salem, president and CEO of Brightmail.

With its strong focus on the enterprise customer and leadership in the enterprise messaging environment, Brightmail understands what corporations need and want in their email infrastructure. Together we are bringing comprehensive solutions to the enterprise customer, said Sathvik Krishnamurthy, president and CEO of Voltage Security, Inc.

Brightmail Anti-Spam is the leading anti-spam solution delivering the highest effectiveness and accuracy combined with low administration. Voltage SecureMail is the first secure email solution that makes secure, ad-hoc business communication as easy as traditional, non-encrypted messaging. Brightmail Anti-Spam and Voltage SecureMail solutions are available today and the companies are collaborating across several areas of integration with management, performance, and other key enterprise requirements in mind.

About Voltage Security

Voltage Security, Inc. is a leading provider of secure multi-channel business communication solutions based on a revolutionary breakthrough called Identity-Based Encryption or IBE. Voltage Security's mission is to use identity to bring confidence to business communication. Voltage solutions secure business communication by making anytime, anywhere communication easy to use and painless to deploy. The Voltage SecurePolicy Suite, Voltage SecureMail and Voltage SecureFile, are commercially available today, with solutions for instant messaging and web services forthcoming. Voltage serves leading enterprise customers and regulated industry segments such as financial services, healthcare, pharmaceuticals and government. For more information on Voltage Security and to learn more about IBE, please visit www.voltage.com.
