

Canon launches new time-saving laser printer and series of MFDs for business

Canon's next-generation LASER SHOT printer and imageCLASS multifunctions combine no-wait printing with superior image quality

Canon New Zealand announces the release of three new printers within its LASER SHOT printer and imageCLASS multifunction device ranges. The new products are designed to eliminate wait times to increase office productivity, and reduce power consumption to save money on energy bills.

The new range, which includes the mono LASER SHOT LBP6750dn available now, the colour imageCLASS MF9220Cdn and imageCLASS MF9280Cdn, will be available early 2011 through authorised Canon distributors and resellers.

In every business, time is money. Canons new laser printers and multifunction devices have been engineered to provide instant printing and copying, with no wasted time spent standing around the printer, says Robert de Jeu, Brand Manager Print Solutions, Canon New Zealand.

In addition to speed, their smaller size makes them well-suited for departments like HR and finance that handle sensitive data, as well as places where space is at a premium. He added that, low energy consumption of the new machines had resulted in reduced running costs in the long term.

The Energy Saver Mode and Instant Warm-Up Features

To eliminate expensive waiting times at the printer, Canon has engineered LASER SHOT and imageCLASS printers to be speedy, yet energy-efficient when not in use. They respond immediately from Energy Saver Mode in some cases zero second waiting time and produce lightning-fast printing.

With the all-in-one printer cartridge system, its fast and easy to refill and get back to business.

The Canon LASER SHOT LBP6750dn

The LASER SHOT LBP6750dn delivers fast and accurate printing with print speeds of up to 40 pages-per-minute (ppm) in black and white. With PCL & optional PostScript support and the ability to load up to 1600 pages, this is the perfect business machine.

Key Specifications

- Lightning-quick 40ppm
- Auto duplex printing and copying
- Less than eight seconds to print first page
- Zero second recovery from sleep mode
- Integrated network for group printing
- Inaudible in standby mode
- Energy efficient in standby, consumes as little as two watts in sleep mode
- PCL and Post-Script compatible (optional via Post-Script -ROM & additional RAM)

The Canon imageCLASS MF9220Cdn

This multifunction offers superior colour printing, faxing, copying and scanning in one stylish, cost cutting and space saving unit. It allows you to give your marketing materials added impact with beautiful colour images, bold graphics and sharp text. The imageCLASS MF9220Cdn allows you to scan your documents quickly and easily for direct distribution via email, network file server, FTP server, internet fax or USB key. The 3.5 inch colour TFT display with easy-scroll wheel allows easy access to all the features.

Key Specifications

- Zero warm-up time, no waiting
- Energy star certified, consumes as little as 1.2 watts of power in sleep mode
- Colour multifunction device with auto-duplex printing and copying
- Integrated network for group printing
- High quality copying at 25ppm
- All-in-one cartridge system for speedy and easy maintenance
- Toner gauge Useful toner gauge function to confirm remaining toner quantity

The Canon imageCLASS MF9280Cdn

This intelligent colour multifunction laser offers all of the features of the MF9220Cdn and larger inbuilt memory (768MB). It also adds PCL & Post-Script support as standard and support for a flash memory card.

Key Specifications

- Zero warm-up time, no waiting
- Energy star certified, consumes as little as 1.2 watts of power in sleep mode
- Colour multifunction device with auto duplex printing
- Integrated network for group printing
- High quality copying at 25ppm
- PCL and post-script compatible
- All-in-one cartridge system for speedy and easy maintenance
- Larger integrated memory (768MB)

Key Features of the New Models:

All-in-One Toner Cartridges

All three models combine the Intermediate Transfer Unit, Photosensitive Drum, and Waste Toner Container into a single drum cartridge, meaning fewer consumables to stock and less disruption of staffs time. This translates into less down time, and fewer service calls so you can keep your business running smoothly.
