

Chordiant expands Marketing Director Suite for more powerful campaign management

Chordiant Software, Inc. a leader in Unifying Customer Relationship Management (CRM) Solutions, today announced significant enhancements to the Chordiant Marketing Director Suite that give enterprise marketers more e-marketing muscle by letting them to build stronger, more valuable relationships with customers while maximising return on investment from their marketing initiatives. Chordiant Marketing Director Suite 3 is an enterprise-class marketing automation software application that delivers the performance needed to power the most complex multi-channel, multi-stage relationship marketing campaigns. The new Marketing Director Suite 3 includes enhanced encryption features offering additional data protection in outbound emails; the ability to combine multiple offers in a single communication and track the effectiveness of each; and enhanced access to campaign data for improved campaign analysis and optimisation. Using Marketing Director Suite 3, our Global 1000-type customers can quickly and easily develop and implement multi-channel marketing campaigns in just days, said Ricky Kapur, managing director of Chordiant Australia. By tracking which campaigns are working, marketers can optimise their interactions with individual customers, which ultimately enhances the bottom line effectiveness of their campaigns. Marketing Director Suite 3 features and benefits Formerly known as Prime@Vantage, the new Chordiant Marketing Director Suite 3 lets enterprise marketers to develop and execute personalised, multi-stage, multi-channel offers to individual customers. As part of Chordiant's Unifying CRM Solution, Marketing Director Suite 3 integrates easily with Chordiant's Intelligent Customer Interaction Management (ICIM) platform as well as existing applications and back-end systems to provide an enterprise-wide customer relationship management solution. Marketing Director Suite 3 is the first marketing automation application to fully integrate with front office and back office enterprise-wide information. Marketing Director Suite 3 includes enhanced encryption capability and closer integration with database security provides improved password management and email encryption functionality, particularly valuable when including sensitive reference information in outbound emails. The ability to include multiple offers within one communication is a boon to marketers who actively seek cross-sell and up-sell opportunities. Marketing Director Suite 3 also provides the ability to track the effectiveness of each offer and streamline the business-to-individual marketing process. Marketing Director Suite 3 also tracks real-time response information, including campaign exposure and buying pattern data, which provides customers with the intelligence to leverage what they've learned in a campaign to improve future campaigns. Marketing Director Suite 3 now includes enhanced data management features that allow detailed customer interaction history to be stored and recalled for continual intelligent campaign optimisation. Marketing Director Suite 3 includes Marketing Director, Online Marketing Director, Mobile Marketing Director and Marketing Optimizer, a complete suite of products that enable marketers to develop, execute, track and refine multi-step, event-driven personalised marketing campaigns that span both traditional (direct mail, print and broadcast advertising) and electronic (e-mail, Web and wireless) channels. Marketing Director Suite 3 offers an open, flexible system that integrates easily with existing database architecture and scales to over 100 million unique customer records. Marketing Director Suite 3 is now available. About Chordiant Software, Inc.
