

Cincom Appoints New Priority Manager

In his new role Mr Gardner will be responsible for promoting Cincom's Priority product suite to small-to-medium enterprises (SME) in the manufacturing industry. He has held similar positions at Baan, CSC, Agresso and PriceWaterhouseCoopers and brings more than 20 years experience in IT sales, product development and management to the Cincom role. Prior to this, he worked for three years in the UK as the IT Manager for a travel trade brochure distribution organisation.

Mr Gardner holds Australian Production and Inventory Control Society (APICS) CPIM qualifications. He also has a postgraduate diploma in computer science and is a qualified electronic technical engineer.

Dennis is an outstanding candidate for this position and will bring significant industry experience to his new role, said Paul Hargreaves, Managing Director Cincom Australia and New Zealand.

With his proven track record, I am confident that Dennis will prove invaluable to Cincom in meeting our business objectives in the SME marketplace. Cincom's Priority is an Enterprise Resource Planning (ERP) software solution, which provides a competitive edge through cost effective and efficient use of a single system that supports the complete business process. Priority is designed specifically to fulfill the needs of SMEs that sell, manufacture or distribute products and services. Priority is used by a number of Australian companies including Steel River Manufacturing and Mills Display.

About Cincom

Cincom is the world's most experienced software company, now spanning five decades with solutions to help customers simplify complex business processes and transform corporate information into competitive advantage. Our software products include manufacturing control systems, contact centre and customer relationship management systems, databases, document management, sales knowledge systems and e-business solutions. Cincom has a variety of clients in Australia including ASC, Thales, Honeywell, Mills Display and Alcatel and has a track record for on-time, on-budget implementations that result in a faster return on investment.

For more information about Cincom's products and services, visit the Cincom Australia website at www.cincom.com/au.
