

Compuware Named "Global Company of the Year for Cloud-Based Application Monitoring"

Frost &Sullivan Gives Compuware Highest Rating, Calling it the Industry's Only Comprehensive Cloud Monitoring Solution

Compuware Corporation (Nasdaq: CPWR), the technology performance company, today announced that it has been awarded the 2011 Frost & Sullivan Global Company of the Year Award in the cloud-based application monitoring market. For a complimentary copy of the Frost & Sullivan award analysis report titled: Best Practices Award Analysis for Compuware, <<http://bit.ly/AzTtRs>> click here <<http://bit.ly/AzTtRs>> .

In a recent analysis of the cloud-based monitoring market conducted by Frost & Sullivans Test & Measurement research team, Compuware and other companies were evaluated in five categories: 1). Growth strategy excellence; 2). Growth implementation excellence; 3). Degree of innovation with products and technologies; 4). Leadership in customer value; and 5). Leadership in market penetration.

Compuware received the highest scores of any vendor in all five categories, as well as the highest overall rating.

By offering a solution that provides complete visibility across the entire application delivery chain, Compuware has positioned itself as a company that delivers high customer value, wrote Srihari Padmanabhan, Global Senior Research Analyst of Test & Measurement at Frost & Sullivan, in the report <<http://bit.ly/AzTtRs>> . The company has set new standards in the cloud-based application monitoring market by offering the industrys first end-to-end application monitoring solution.

Padmanabhan goes on to state: Compuwarehas achieved huge success with its Gomez product line. Being the only company to offer end-to-end visibility into application performance,Compuware has been able to achieve a distinguished position in the application monitoring market. Given the expeditious penetration rate seen with the Gomez solutions, Compuware is expected to capture a major portion of the cloud-based application performance monitoring market in the near future.

We are honored to be recognised by Frost & Sullivan as Company of the Year for our leadership and innovation in the cloud-based application monitoring market, said John Van Siclen, General Manager of Compuwares Application Performance Management (APM) business unit. Thousands of customers use our cloud-based APM solution every day to ensure the success of their business critical transactions. This award attests to our strategic commitment to cloud-based application monitoring and the value our APM solution brings to our customers.

The Compuware Gomez platform is the industrys leading solution for optimising the performance of Web, non-Web, mobile, streaming and cloud applications. Driven by end-user experience, Gomez provides a unified view across the entire application delivery chain, from a users browser or mobile device, across the Internet or a corporate WAN, in the cloud, to inside the data centre, eliminating blind spots from the First Mile to the Last Mile.

Compuware is recognised as a leader in Gartner Inc.s Magic Quadrant for Application Performance Monitoring report.
