

Delta Electricity Signs Significant Managed Services Contract with Mincom

Energy leader extends long-standing relationship with Mincom in new multi-million dollar agreement

BRISBANE, Australia, 21 June 2011 — Mincom today announced that Delta Electricity, Australia's largest capacity electricity generator, has extended its managed services contract with Mincom in a multi-million dollar deal. The one-year agreement renews Delta's contract with Mincom for full software support and administration of Delta's implementation of Mincom Ellipse software for Enterprise Asset Management (EAM) and Enterprise Resource Planning (ERP), as well as other IT services.

Under the new agreement, Mincom will continue to provide Delta with software support for Mincom Ellipse applications for asset and work management, finance, human resources and supply chain.

"Delta Electricity is one of Mincom's largest managed services customers globally. By the end of this most recent renewal, Mincom will have provided Delta with 14 years of continuous application support and IT services," said Greg Clark, CEO of Mincom. "We're pleased the company continues to rely on Mincom for its market-leading asset and work management software, a full suite of ERP applications, and many other key IT services across the company."

Added Clark, "Managed services is a growing part of our business, as more and more customers opt to rely on Mincom's experience and expertise in managing application environments. In addition, businesses are embracing cloud-based managed services as well as on-premise managed services to reduce the total cost of ownership of their IT solutions."

Delta Electricity is the largest capacity electricity generator in Australia's National Electricity Market with an installed capacity of over 5,000 megawatts. The company produces electricity from coal, gas, water and biomass. Formed in 1996, its generators produce around 12 percent of the electricity needed by consumers in the National Electricity Market, comprising all states and territories except WA and NT.

About Mincom
