

## Digital Pacific Announces Free Domain Names Giveaway

Digital Pacific is giving away free domain names with the purchase of 3, 6 or 12 month business web hosting plans. Australian businesses looking to gain a presence online are taking advantage of this promotion in order to snatch up a free domain name registration and secure quality and reliable business hosting. Eligible domains are any ending in .com, .net, .org, .biz, .info, .com.au, .net.au, .org.au, and .id.au. The Business Advanced plan, for example, is Digital Pacific's most popular option to date. With 10,000mb of storage space and 25 GB of monthly data transfer, it is perfect for a business with a reasonable amount of web traffic. The package, available at a highly competitive price, also includes access to various web applications, unlimited MYSQL databases, email accounts and subdomains, as well as a web based control panel to name a few. The real bargain, however, occurs when purchasing a 12 month business hosting plan. In addition to the complimentary domain name registration, a business will also get a discount equivalent to 2 free months of hosting. Andrew Koloadin, managing director of Digital Pacific, states, "We are very excited about this promotion and invite everyone to take advantage of the free domain names giveaway." The promotion runs through October 31, 2009. About Digital Pacific Digital Pacific provides quality domain names and webhosting solutions to businesses and individuals Australia wide. To take advantage of this promotion, please visit the Business Web Hosting page and use the order links.
