

Dimension Data wins Microsoft Australian Enterprise Partner of the Year 2010

Sydney, Australia September 3, 2010 Today, Dimension Data proudly announced it has won the MAPA 2010 Microsoft Enterprise Partner of the Year Award. The company was chosen out of a national field of top Microsoft partners for delivering market-leading customer solutions built on the Microsoft platform. It is the second year running that Dimension Data has won this award.

This award endorses our full service approach which offers clients best-in-class solutions across our focus areas of licensing, core infrastructure optimisation, unified communications and collaboration, as well as application services based around SharePoint and SQL Server. The Enterprise Partner of the Year Award is the Microsoft equivalent of the Gold Logie and we are incredibly proud to win it in consecutive years, said Brian Walshe, General Manager, Microsoft Solutions, Dimension Data.

Awards were presented in 18 categories, and Dimension Data was acknowledged for its innovative and unique services and solutions based on Microsoft technologies to enterprise clients. The Enterprise Partner of the Year Award recognises partners who have delivered exemplary solutions using Microsoft technologies to address clients business needs and challenges.

Its an honour to congratulate Dimension Data as a recipient of a MAPA 2010 Partner of the Year Award, said Mr Paul Voges, Small and Mid-size Solutions and Partner Director, Microsoft Australia.

This award recognises Dimension Datas industry knowledge and expertise, as well as for the consistent, high-quality, predictable services and solutions the company delivers to its enterprise clients. We offer our wholehearted congratulations to Dimension Data and look forward to continued success in the future.

The MAPA programme recognises Microsoft partners that have developed and delivered exceptional Microsoft-based solutions during the last year.
