

Ecotex latex glove

New to Pro-Val glove range the latex Ecotex glove

Ecotex is a lightly powdered disposable latex glove (non medical grade).

Comfortable, flexible, providing great dexterity for the wearer, these latex gloves are suitable for many general applications, inners bulk packed to eliminate wastage and maximise storage space.

Made from natural rubber latex and for single use, non sterile with a beaded cuff for easy donning. The gloves have HACCP Australia Food Safety Certification making them ideal for use in the food manufacturing and processing, abattoirs and food handling and preparation areas.

Graphic arts, childcare centres, mechanical workshops and tattooists are also among many of the industries that can use the Ecotex glove.

Available in sizes Small - X large and packaged in convenient dispenser style boxes of 200 pieces (size X Large packaged 180 pieces per box), 10 boxes per carton
