

## iVision Wins Cisco Marketing Excellence Award at Cisco Australia and New Zealand Insight 2010 Partner Conference

Sydney 7 June 2010 iVision announced today that it is the recipient of a Cisco Australia and New Zealand Insight 2010 Partner Conference award for Marketing Excellence. Cisco unveiled the winners at its Insight 2010 Partner Conference staged in Sydney last week.

"It is an honour to present iVision as a Cisco Australia and New Zealand Insight 2010 Partner Conference award winner," said Michael Lehmann, director of Partner Operations for Cisco Australia and New Zealand. The Marketing Excellence Award recognises iVisions performance and achievements as a Cisco business partner in fiscal year 2010.

We are delighted to have won the Cisco Marketing Excellence Award for 2010. The award reflects the close relationship between our two organisations. Earlier this year, with Ciscos support, we were able to create an event which brought together a community of Unified Communications-focused CIOs. Over breakfast, CIOs from Brisbane, Sydney, Adelaide and Melbourne were all able to network and share their experiences using Cisco TelePresence technology. The result was a high impact forum which underscored iVisions leadership role in Unified Communications and also created a strong sales engagement with Cisco and a springboard for mutual collaboration moving forward, said Graham Williams, Managing Director, iVision.

The objective of national awards is to recognise exemplary business partners whose actions Cisco would like other partners to model. Nominations include: innovative practices, architecture-led approach successes, business differentiation and strategic outcomes. All winners are selected by a group of Cisco Australia and New Zealand Partner and Country executives.

Cisco Australia and New Zealand Insight 2010 Partner Conference awards reflect a partners performance in driving differentiation in its business and extending its capabilities to accelerate customer business transformation in fiscal year 2010.

### About iVision

iVision is the leading Australian systems integrator providing Unified Communications (UC) services and solutions. The company has unparalleled capability in visual communications and supports the audio visual integration required for video conferencing solutions. The company also has strengths and experience in core networking and IP telephony. Although product and technology are important for a UC solution, iVision leads with services designed to support organisations with their initial and ongoing UC requirements. Its range of services include: Consultation, Implementation and Integration services, Managed Services, Hosted Services, and Usage and Adoption Services.

iVision customers include Ergon Energy, Google, iSOFT, Monash University, Pfizer, and Queensland TAFE.
