

LAN Systems appoints Denise Overs as Regional Manager for the ACT

LAN Systems has appointed Denise Overs as Regional Manager for the ACT. Denise's appointment is part of LAN System's move to drive business opportunities in the ACT.

With more than 10 years IT business experience Denise will be responsible for supporting Canberra customers with services beyond standard distribution. She will also work with customers early in the development planning phase to increase the effectiveness of their network solutions.

Prior to joining LAN Systems, Denise worked with Nortel as the ACT channel manager. She has previous experience in the distribution market working as branch manager for Tech Pacific in Canberra.

Denise has completed a Graduate Certificate in Management at Charles Sturt University.
