

# Lexmark expands its monochrome laser offerings with newest compact MFPs

SYDNEY, 20 May 2009 Expanding its lineup of industry-leading laser devices, Lexmark International, Inc. (NYSE: LXX) today announced two new monochrome laser multifunction products (MFPs), the Lexmark X204n and X203n, which have the smallest footprint in its class\*. Designed especially for the desktop, these monochrome laser MFPs meet the needs of customers who seek professional, business-class output, but face the challenge of smaller working environments or conserving desk space.

"Although it has a small footprint, the X204n provides both the technological innovation and reliability that Lexmark's customers have come to expect from our products and services," said Marty Canning, Lexmark vice president and president of its Printing Solutions and Services Division. "This desktop-friendly MFP is easy-to-use, packed full of features and will help any user or small workgroup drive efficiency and move their productivity ahead."

## Big benefits in a small package

Targeted to small workgroups in any size business, the affordably priced Lexmark X204n provides performance-rich features and convenience in a small footprint.

Built for business, the Lexmark X204n integrates the functions of several stand-alone devices, combining copy, scan and fax capabilities into its compact design. The device also boasts such features as 1200x1200 dpi for high-quality output, an output capacity of 150 sheets, a 30-sheet automatic document feeder (ADF), and prints up to 24 pages per minute (ppm).

Customers will find it easy to be more productive with the innovative scanning tools that come with this network-ready desktop companion. The Lexmark X204n can be used to scan to e-mail and is equipped with intuitive scan software out of the box, Lexmark Scan Center and Presto PageManager 7 Deluxe, so customers can move quickly between hardcopy and digital documents.

The Lexmark X203n offers customers the same big functionality of the X204n, with the exception of fax and an automatic document feeder.

The Lexmark X204n and X203n will be available through Lexmark's channel partners and online at [www.lexmark.com.au](http://www.lexmark.com.au).
