

NEW BEAUTY ESSENTIALS FOR PLANE TRAVEL

With a new optimal 100ml size for hand luggage regulations, Adorn Cosmetics Bulgarian Rose Hydrating Mist is an essential skincare travel staple that effortlessly maintains moisture levels whilst flying.

NEW BEAUTY ESSENTIALS FOR PLANE TRAVEL

With a new optimal 100ml size for hand luggage regulations, Adorn Cosmetics Bulgarian Rose Hydrating Mist is an essential skincare travel staple that effortlessly maintains moisture levels whilst flying.

Distilled from 100% pure, fresh rose petals and certified toxin free, this naturally fragranced, luxurious hydrating mist will help combat cabin conditions to protect skin from the damaging effects of dehydration.

Suitable for both dry and oily skin, the pH level of 4.5 to 5.5 of Adorn's premium grade Rosewater will maintain skin's optimal pH balance to keep skin supremely hydrated. Misting mid-flight will also comfort and cool skin, providing relief from low humidity in the plane.

The convenience of hydration in a spray makes it an easy and beautiful in-flight ritual to prevent dry, flaky and itchy skin- especially for frequent flyers whose skin can suffer from long term damaging effects of dehydration.

The divine, aromatic properties of Rose will also soothe traveller's weary senses, helping them to unwind and relax into their flight. Passengers arrive at their destination feeling refreshed and rejuvenated, with soft, dewy, radiant looking skin.

Adorn Cosmetics' natural and organic Bulgarian Rose Hydrating Mist is Choose Cruelty Free, Vegan, and Toxic Free certified. It's free from synthetic fragrances and colours, Palm Oil, Mineral Oils, parabens, petrochemicals, sulfates, nano particles, and skin irritating fillers such as Talc, Rice Powder, Clay and Itchy Bismuth.
