Optimizing Personal and Group Relationships

Brain Resource Webinar this Friday 20th January 2012

By Dr Evian Gordon Chairman & CEO Brain Resource

18  
January 2012

The next Brain Resource Webinar, Optimizing Personal and Group Relationships will be held this Friday 20th January 2012 at 1300 ADST Australian time.

Hosted by Dr. Evian Gordon, Chairman and CEO of Brain Resource, this 10 minute Webinar on 'Relationships' focuses on the CORE organizing principle of the Brain: "SAFETY First - Before Reward can be explored". If people don't feel Safe in a personal relationship or in a Group/Team - they are going to interact in a manner that is "Self Protective" rather than be open and attuned to build the quality of the relationship(s) and trust. They will "Pushback" on anything they are told to do.

This Webinar is part of a weekly series about how you can:

Know your brain and Train your new brain habits.

To join the webinar at the following times, please follow the link below.

19  
January 18:00 Hours PST USA / 19  
January 21:00 Hours EST - USA

20  
January 13:00 Hours ADST AUS

About Brain Resource

Brain Resource (OTC: BRRZY, ASX: BRC)

translates new findings about the brain into engaging products for consumers, employers and clinicians to improve cognition and brain function. With offices in Sydney and San Francisco, and agents in Europe and Israel, the company is underpinned by an international consortium of scientists and clinicians that bring together all aspects about the brain that are usually assessed independently.
