

Super Soft nitrile glove

New nitrile glove to the pro-val range of gloves

RCR International are pleased to announce the introduction of a new nitrile glove to their disposable glove range. The super soft nitrile glove is a nitrile, powder free disposable glove (non medical grade). The super soft nitrile glove offers the wearer outstanding feel, comfort and grip. Blue in colour for easy recognition in food processing and handling areas. This glove is latex free, but provides the dexterity and feel of a latex glove. Inners bulk packed with 200 gloves to eliminate waste and maximise storage space.

The glove is latex free making it ideal for latex allergy sufferers and is super soft, providing extreme comfort for the wearer. With HACCP Australia Food Safety Certification the gloves are perfect for use in food manufacturing and processing, abattoirs and the food handling and preparation industries.

With a broad range of chemical resistance, particularly petroleum based chemicals these gloves can be used in mechanical workshops. The textured finger tips provide good grip and beaded cuff ensures extra strength when donning. Childcare centres, tattooists and graphic arts are some of the other industries that would benefit from using the super soft nitrile glove.

Available in sizes Small - X Large. Packaging: 200 pieces per dispenser box, 10 dispenser boxes per carton.
