

Three big wins for ADC KRONE

The Berkeley Vale manufacturing facility is the centre of excellence for the region, recently becoming Asia-Pacific Headquarters for ADC KRONE. These awards recognise the dedication of the entire ADC KRONE team to business excellence and innovation.

Entering the awards provides us with an opportunity to put our business under a microscope and look at it from an outsiders perspective, said John Harris, Manufacturing Director at ADC KRONE. Winning the Manufacturer of the Year Award two years running is a real statement with regard to our excellent staff and capabilities.

ADC KRONE based the application on key competencies including: Commitment to the protection of the Environment, Recognising employees as their greatest asset, Energy Efficiency, Strategic Planning, In-situ re-engineering and performance upgrade capabilities, Long product life guarantee and regular reviews to assess processes.

We were thrilled to win three awards this year, added Harris. We will continue to pursue a level of excellence, setting the standard for Manufacturing on the Central Coast and beyond.
