

# ViewSonic expands computing line with new PC mini series

Four new PC mini models that satisfy a variety of uses, positioned to be popular

Sydney,

Australia, October 28, 2009 Following

the success of its introduction to the PC arena with the VPC100 All-in-One PC, ViewSonic, global

technology provider and renowned worldwide leader of visual display products

today announced the release of its PC mini series: PC mini 550, PC mini 530, PC mini 132 and PC mini 120. A game-changer

for the traditional PC market, ViewSonic's pint-sized, eco-friendly and

cost-effective PC mini series offers a compact, power-saving solution to the

bulky, noisy PC tower stereotype. With its customised solutions this line

addresses a variety of user needs, including home entertainment, internet

surfing and commercial applications, driving the next generation of PC

computing. These PCs are So Mini. So Powerful. PC mini 550 Full Features + Personal

Entertainment

ViewSonic's high performance model the PC mini 550

is equipped with the new Microsoft Windows 7 operating system, an Intel Core 2

Duo 2.2 GHz CPU processor and Centrino platform for a quieter, more energy

efficient operation than traditional desktop PCs. The PC mini 550 boasts the

highest amount of system memory which includes 4GB DDR2 and a 320GB hard drive.

In addition, the prize piece in this powerful PC Mini is the built-in Blu-ray

combo disc drive for playing full HD 1080p video smoothly with brilliant

clarity.

The diminutive 1.3L PC mini 550 supports Windows MCE and includes a full

featured remote control, making it ideal for connection to a home entertainment

system with a big screen LCD TV or for serving as a multi-channel surround

sound system via a SPDIF terminal. Whether accessing the internet, watching

movies or listening to music, the PC mini 550 and PC mini 530 bring consumers

the perfect combination of performance and price in a petite package. PC mini 132 The Perfect Personal Models

Designed for general family and personal use, the PC

mini 132 weighs just 0.45kg and is only 0.6L in size 50% of the surface area

of an A4 sheet of paper. The PC mini 132 also includes Microsoft Windows 7

operating system, a dual core Atom 330 processor and 2G SDRAM. An optional

VDD100-DVD super multi recordable DVD drive is also available. Graphics

performance experience is enhanced with the latest nVIDIA ION video chip making

the PC mini 132 an excellent solution for HD games and multimedia entertainment

with smooth HD display quality. PC mini 120 Compact, Commercial Computing

Designed to address the needs of SMB and SOHO that require simple

operation, easy maintenance, space-saving design and power-saving features,

ViewSonic presents the PC mini 120. The PC mini 120 comes in a tiny box of

merely 0.6L and weighs in at an airy 0.55kg so light it can be carried around

the house and connected to any monitor that meets the users need. The PC mini

120 comes with Microsoft Windows XP operating system, 1GB DDR2 memory, 160GB

SATA hard drive and offers multiple connectivity options with four USB ports

for flexibility.

The ViewSonic PC mini 550, PC mini 530, PC mini 132 and PC mini 120 will be available at selected retailers and computer resellers in Australia and New Zealand. RRP's below: PC mini 550 (VOT550) - AU\$1,499 inc GST, NZ\$1,849 PC mini 530 (VOT530) - AU\$1,099 inc GST, NZ\$1,349 PC mini 132 (VOT132) - AU\$799 inc GST, NZ\$969 PC mini 120 (VOT120) - AU\$499 inc GST, NZ\$699 Optional super multi recordable DVD drive VDD100 - AU\$199 inc GST, NZ\$249 About ViewSonic ViewSonic Corporation is a leading global provider of visual display products.
