

Wolverine Classic 1000 Mile Boot

Product Review - Wolverine Classic 1000 Mile Boot

Iconic American boots are everywhere these days, but they don't come much more handsome than these retro-inspired Wolverine Classic 1000 Miles. What they call the tan colorway is new for them this season, and constructed from gorgeous, caramel Horween Inferno Leather; which will age beautifully with the proper care. Made 100% in the USA, these boots are quickly shooting up my list of must-grab fall essentials: just as at home in the backwoods as on the boulevards. \$499.90(for more products visit: www.escape2.com.au)
