

\$200 GPS Tracking Device Set To Beat Theives

SPOT Trace is a no-brainer for your cars, boats, motorcycles, toys and other valuables.

Perth based SPOT Distributor AffinityOne has announced that it will be distributing the new SPOT Trace in Australia.

AffinityOne General Manager Paul Delaney said "Australia wide GPS tracking will be affordable and reliable with SPOT Trace".

AffinityOne have already had interest from resellers of recreational vehicles and vessels who see the device as a must have for owners. Delaney commented "we hope Australian insurance companies embrace GPS tracking technology and actively encourage policy holders to fit a tracking device buy providing an additional level of premium discount."

The SPOT Trace offers advanced theft-alert tracking for anything. Instantly receive a text or email when your most valuable assets move, or follow them on Google Maps anytime on your phone or computer. Custom tracking options allow you to select the rate at which updates are sent – every 2½, 5, 10, 30 or 60 minutes.

Affordable and easy to use, SPOT Trace is a no-brainer for your cars, boats, motorcycles, toys and other valuables. NO WORRIES.

Hardware

As with all things SPOT, the RRP will be low and competitive estimated to be under \$200

Service Fees

There will be two plans available and we estimate the tariffing to be as below and are yet to be confirmed. Subscription is paid directly to FindmeSPOT and is charged in USD \$

Basic Service Estimated \$115 USD per Year

SPOT Trace automatically sends a SMS text/email with your asset's GPS coordinates once movement has been detected. View the asset's GPS coordinates anytime online or via our app. Basic service allows you to customize your Trace to track every 5, 10, 30 or 60. Also, customize your device's dock mode, movement alert, status, low battery and power off settings.

Extreme Tracking Upgrade Estimated \$99 USD per Year

Enjoy even greater assurance with Extreme Tracking. Enjoy all the features of Basic Service, with the added benefit of being able to track your asset's GPS coordinates every 2½ minutes.

The Power of Satellite

Using 100% satellite technology, SPOT Trace tracks your most valuable assets virtually anywhere in the world, beyond the reach of traditional cellular coverage.

Peace of Mind at Your Fingertips

Instantly receive a text or email when your most valuable assets move, or follow them on Google Maps™ anytime on your phone or computer. SPOT Trace Message Features:

Key Features:

- Custom Tracking

- Movement Alerts
- Quick Setup
- Easily Mountable
- Rugged + Waterproof
- Long Battery Life
- Line Power Option

Customized Tracking Options to Fit Your Needs

Select the rate at which tracking updates are sent — every 2 ½, 5, 10, 30 or 60 minutes.

Advanced Theft-Alert Tracking for Anything

Once activated and powered on, SPOT Trace will acquire its exact coordinates from the GPS network. SPOT Trace sends the GPS location to communication satellites. The satellites relay the message to a ground network, which uses the internet to route the message to your phone or computer. SPOT Trace allows you to monitor your asset and track its movement in near real-time via Google Maps™. Because SPOT Trace uses satellite technology, it can communicate from some of the most remote locations around the world. Never let your most valuable asset disappear without a trace.

Multi- Purpose Design

SPOT Trace's compact and discreet design allows the device to blend in seamlessly with its surroundings. Durable and lightweight, SPOT Trace goes anywhere.
