

6clicks Launches Australian AI Research & Development Division

Ensuring Continuous Innovation and Development of Artificial Intelligence Applied to Risk Management and Compliance

We are thrilled to let you know that two of the world's greatest AI and Machine Learning minds are joining 6clicks! Meet Phil de Silva, our new Lead AI Platform Architect, and Senior AI Engineer Rahul Rao.

Phil and Rahul bring their world-class skill sets in artificial intelligence and machine learning prowess from Deep Blue AI to work in collaboration with the exciting 6clicks AI roadmap (you'll flip out when you see what we have in store).

Phil is a renowned leader in the IT and SaaS industries. His lengthy background includes work in digital transformation, data engineering, cloud computing, networks, security, automation and DevOps. Phil has architected, planned and delivered data analytics and digital platforms at successful start-ups, financial services, banking, and large enterprises across Asia Pacific, North America and Europe.

Rahul Rao has a PhD in engineering from Monash University where he researched the application of AI to complex engineering problems. With certifications in machine learning and AI from Stanford University and IBM, he is a legend in regression and classification algorithms using cutting-edge neural network architectures.

6clicks CEO and Co-Founder Anthony Stevens informed the team this morning saying, 'There are some really tough problems we've been working on with Phil, Rahul and our engineering team. Facing into these problems and finding breakthrough solutions highlights the massive opportunity to do so much more to streamline and reduce the cost of compliance'.

We cannot wait to share what we have planned next, stay tuned! The 6clicks Nerd Herd.
