

# A MESSAGE FOR FARMERS AND COUNTRY FOLK IN AUSTRALIA

NEXT TUESDAY WE ARE GOING TO BE PUNISHED FOR LIVING IN THE COUNTRY

A MESSAGE FOR FARMERS AND COUNTRY FOLK IN AUSTRALIA.

A message for farmers and country folk throughout Australia, we are going to be punished for living in the country next Tuesday May13 in a horror budget. We have to motor hundreds of miles to shop and see a doctor in town and use diesel aplenty. ENOUGH ALREADY! I will cancel the GST on petrol and diesel and the \$6 to see a doctor fee!

Before they sell off your farm and Australia is owned by some other country join now my "Australia New Era Party". Yesterday I bought some oranges at a supermarket and they taste awful. I used to enjoy an orange with lunch but as many as I have tasted over the past few months none are what might be described as nice. Where do these oranges come from? I loved farm bought oranges but now the local orchard is gone and the trees are dead. I will change this and once more farmers, milk and dairy producers will have a decent income and living. I don't make promises I don't keep I am not a politician and have never been a member of a political party and can think and do as I want. Join my "Australia New Era Party" for a fair go. Australia is in your hands, Cheers Ray.
