

Advanced Solutions International honoured with Australia's 'Best Companies to Work For 2010' accolade

Dedication to the not-for-profit sector key to ASI's success

Melbourne, 24th June 2010 Advanced Solutions International (ASI) has been named one of the 50 best places to work in Australia by the Great Place to Work Institute 2010 survey, published today in BRW magazine. This is the second year in a row ASI has received the accolade, placing the not-for-profit partner amongst the exclusive ranks of more commercially-focussed premier workplaces.

2010 represents the second year the illustrious survey has opened eligibility for small companies such as ASI to enter. A testimony to its emphasis on maintaining a great place to work despite global economic difficulty, ASI has been rewarded for its leading approach to flexible working and outstanding dedication to staff recognition and wellbeing.

ASI has worked exclusively with associations and charitable organisations for nearly 20 years. It proudly consists of motivated and passionate employees who believe in the not-for-profit organisations with which they work.

With numerous initiatives to support staff, ASI has been highlighted for its unique and motivational recognition program, rewarding values and allowing employees to nominate exemplary colleagues; its exceptional commitment to maintain work-life balance, with the majority of staff taking advantage of flexible hours and remote working; its promise to ensure the wellbeing of workers with gym membership subsidies and weight loss programs; and its open and honest systems of communication with staff based on trust.

"ASI is honoured to be named once again on 'BRW Best Places to Work 2010,'" said Paul Ramsbottom, Managing Director, ASI Asia-Pacific. "This accolade confirms ASI's continued commitment to ensuring an open and positive workplace environment that supports the acknowledgement of excellent work and the best interests of staff."

ASI's flagship software product iMIS is used by more than 280 not-for-profit organisations in the Asia Pacific region including Cancer Council Victoria, National Breast Cancer Foundation, The Royal Australasian College of Surgeons, Committee for Economic Development of Australia, Australian and New Zealand College of Anaesthetists, The Royal Australian College Of General Practitioners, Professional Golfers Association of Australia, Surf Life Saving Foundation and The Tax Practitioners Board.
