

Alarms and Security Systems are a Specialty at Sydney Electrical Service

Sydney Electrical Service is accredited by the NSW Department of Planning, we specialise in the supply of electricity from the energy authority network to your property.

The installation of safety and security systems is increasing. They provide peace of mind for home and business owners and increase the value of properties. Sydney Electrical Service is a preferred provider and installer of the complex systems, along with IoT and building automation technology. Safety and security systems encompass a wide range of options and the electrical professionals can craft custom security systems for every need. The company installs globally recognized brands known for quality and reliability. Sydney Electrical Service experts are trained in the installation, testing and maintenance of traditional, wireless, and high-tech security systems in multiple environments.

The electrician Bondi is skilled with security and burglar alarm systems that utilize remote controls, keypad access, and infrared detectors. The security experts are experienced in working with wired systems, those that connect to phone lines and wireless sensors, along with monitored and unmonitored security systems.

Businesses and commercial enterprises often utilize CCTV systems that provide high-resolution images, night vision capabilities, and real-time monitoring. The electrician Inner West installs indoor and outdoor systems that aid businesses in protecting their equipment and inventories, and provide ongoing service and recommissions. Entry can be accessed via fingerprint and card reader technology, numeric pads, and set for multiple users.

Sydney Electrical Service is a Level 2 authorized ASP providing a comprehensive range of electrical-related installations, repairs and 24/7 emergency services. The company provides preventative maintenance, strata management, and installs safety switches and fire safety systems. The professionals work on overhead and underground lines, provide reconnect and disconnect services, and perform upgrades and metering.

The electrical experts are skilled in the installation of car charging systems and highly efficient solar systems. The electrician Sutherland offers free, no obligation quotes and upfront pricing for residential, business and commercial clients. Fully licensed and insured, Sydney Electrical Service can work on contestable works and is accredited by the NSW Department of Planning.
