

AlayaCare Announces New General Manager - Australia

Next-generation home care software company expands commitment to the Australian market

SYDNEY AND TORONTO (PRWEB) JANUARY 22, 2018

AlayaCare, an award-winning home healthcare software company, today is expanding its commitment to the Australian market through its hiring of Emma Pate as General Manager. Emma has spent more than 15 years working with clients to solve real health issues and develop businesses for global ICT and health companies.

“AlayaCare is committed to the Australian market and is building the best product possible to transform the home care industry,” said AlayaCare founder and CEO Adrian Schauer. “By bringing a modernized, consumer-focused platform to Australia, we believe we can dramatically improve operations for aged care providers while achieving better health outcomes.”

Based in Sydney, Emma will lead the operations and sales teams in achieving this vision and helping Australian agencies improve their efficiency ability to deliver quality care. She carries over a decade’s experience in community care and health at Silver Chain Group/ EOS, Telstra Health and iSOFT/ iBA.

“It’s exciting to work with a dedicated and energised team who are supporting true next-generation technology,” Pate said. “Artificial Intelligence, machine learning, integrated care planning and optimised scheduling are game changers for Australian aged, disability and community care. It’s a quantum leap forward from what is currently on the market.”

About AlayaCare

AlayaCare is a provider of award-winning, cloud-based home health care software. With an end-to-end solution spanning clinical documentation, back-office functionality, client and family portals, remote patient monitoring, and mobile care worker functionality, we offer a platform for agencies to propel towards innovation and home care of the future.
