

Allen House Dental is the Offering Dental Care Services at its Newly Renovated Clinic

At Allen House Dental, we offer premium dental advice along with access to our emergency dentists available especially late evenings and Saturdays.

Family dentistry means more than simply providing care and treatment. Rashi Goel, owner of Allen House Dental Practice, knows that it means providing individuals with premium dental services, modern technology, and a sense of community. Those elements are just some of the reasons that the dental practice has earned a reputation as a preferred provider.

The dental practice provides an extensive array of services for patients of every age, from children receiving their first dental check-up to those that need dental implants or dentures. A dental crisis can occur at any time and individuals have access to emergency dentists. Private and NHS patients are all welcome and the practice offers special financing plans.

The dentist Cheshire offers convenient teledentistry for virtual exams and video consultations for treatment planning. A wide variety of cosmetic dental services are available encompassing veneers, complete makeovers, and invisible aligners for discreet and unobtrusive straightening. The practice has multiple solutions for improving dental health, appearance, and functionality.

Damaged and improperly formed teeth can be a source of embarrassment and even affect career advancement. Missing teeth do more than mar a person's appearance. They can affect the bone structure of the mouth. For those that require more intensive care, Allen House Dental Practice performs dental restorations, root canals, and dental implants.

One of the most highly sought services is teeth whitening to eliminate stains and erase the signs of aging. A bright, white smile is viewed as an indication of health, youthfulness, and improves confidence. The dentist will discuss teeth whitening before and after UK and offers the highly advanced Phillips ZOOM LED whitening technology.

Allen House Dental Practice offers a comprehensive range of services for every member of the family. The dentist Edleston Road Crewe is committed to providing a welcoming environment and the superior cosmetic and restorative services that promotes excellent oral health and fosters confidence among the practice's community of patients.

About Allen House Dental Practice

Allen House Dental Practice is the original family dentists in Crewe. We are one of the original family dental practices on Hungerford Road for nearly 40 years, offering a wealth of skill, knowledge, and professionalism when it comes to oral health. We are never too busy to talk with you about cleaning whitening, restorative treatment, smile makeovers, or an emergency dentist in Crewe. Connect with us on Facebook, Twitter, and Instagram.
