

Andatech launches new Art of Scent essential oils range

Melbourne, Australia – April 30, 2016 – Andatech has launched the new Art of Scent essential oils under its health and wellness product range.

The Art of Scent essential oils can be used topically or aromatically to provide a variety of sensory as well as other wellness experiences and benefits.

Mr. Irwandy Tan, director of Andatech, announced the launch of the Art of Scent range as an expansion of the company's vision to promote health and wellness at home and at work.

"Today, more individuals are looking for ways to avoid chemicals in their home and are choosing natural products and aromatherapy as alternatives," Mr. Tan said.

The Art of Scent essential oil range currently consists of four scents – Lavender, Mandarin, Tea Tree and Rosemary.

Each Art of Scent essential oil is 100% natural and pure oil extracted directly from the botanical plant source and is free of synthetics, impurities, pesticides and heavy metals.

Art of Scent's essential oils can be diffused, inhaled or applied topically with the use of a carrier oil.

The range complements Andatech's Ionmax Serene ION138 aroma diffuser, which uses high-frequency vibrations to create an ultra-fine mist – without the use of heat or chemicals to maintain the integrity of Art of Scent's essential oils.

Availability

The Art of Scent essential oils are available directly from Andatech and resellers.

Interested parties can visit the website or call Andatech in Australia on 1300 800 200 or (+613) 8899 6900.
