

ATI Global Completes Acquisition of Groundsure

Sydney, Australia: January 20, 2021 - ATI Global, a global leader in legal technology, software and information services, announced today that it had acquired Groundsure, a Brighton (UK) based location intelligence business from Ascential plc.

Groundsure will continue to operate as an independent standalone business with an absolute commitment to customer excellence^[1] and investment in product development and innovation as part of ATI Global's vision of being a partner of choice to its valued clients.

Stephen Wood, Executive Chairman of ATI Global said, "We are excited to announce the acquisition of Groundsure. The Groundsure team have a long-standing history of providing its customers with actionable insights to make smarter property and land use decisions. Together with Groundsure, we share a strategy of building smart technology that makes clients' lives easier by revolutionising workflow, improving productivity, increasing profitability and stimulating growth."

Duncan Painter, Chief Executive Officer of Ascential stated, "Following a successful period of sustainable growth under Ascential's ownership, we are pleased to see the Groundsure team transition to ATI Global's stewardship. We wish them continued success for the future".

Groundsure will continue to operate from its headquarters in Brighton under the leadership of its existing senior management team.

About Groundsure

Founded in 2001, Groundsure is a UK location intelligence business and leading supplier of environmental searches, data, mapping and reports for the residential and commercial property markets. By turning data into practical, actionable insights, Groundsure gives professionals, businesses and homebuyers expert information on risks including land contamination, flooding, mining and ground stability.
