

Australian business shortlisted for prestigious global award

Personnel Relocations the only Australian company shortlisted

Personnel Relocation is honoured to announce they have been shortlisted in the Think Global People and Relocate Awards 2021. The 2021 Think Global Awards showcase exceptional achievement of organisation and individual across international management and global mobility. Those companies who have used the challenges of the Covid-19 pandemic to re-examine their business model or generate new products and services.

During 2020 Personnel Relocations continued to reinvent despite the challenges of Covid which impacted the business significantly as global mobility ground to a halt. Launching not only a new website but co-wrote a book, set up new processes to automate their business, overhauled their social media and launched a new, local service line INSPECT4U. Owner and Founder of Personnel Relocations said, "Our business is focused on the best possible customer service and this recognition shows our commitment to make relocation support available to anyone."

Owner, Robyn Vogels co-wrote the book "Your DIY Move Guide to Australia". A book that is available on Amazon around the globe and was an Amazon #1 Top Pick and #1 Best Seller in the week of its launch.

The Think Global People and Relocate Awards is in its 14th year of operation. It attracts entries from around the world. There are 52 shortlisted global suppliers in this year's awards, with only five in the Destination Service Provider of the Year, the category that Personnel Relocations is eligible. "We are shortlisted against Relocation companies in Japan, New York, India and Ukraine, so besides being the only Australian company, we are the only one in the Southern Hemisphere to be shortlisted." Said Robyn.

Winners will be announced in London during a Virtual ceremony on June 11th.
