

# Australian Startup Secures Multi-Million Dollar Investment & Serial Entrepreneur Ian Buddery as Non-Exec Director.

We are thrilled to let you know that 6clicks, Australia's leading RegTech startup, has raised \$2.2M AUD from a consortium of Australian business leaders and appointed Ian Buddery as a Non-Executive Director.

6clicks offers a next generation Governance, Risk and Compliance (GRC) platform that revolutionises the way organisations mature their cyber security, data privacy, risk management, and compliance capabilities. Together, with a suite of products including a curated and customisable content marketplace, white-label capability for advisors and mobile app "6clicks Risk Review for Teams", companies can now arm themselves with breakthrough abilities to navigate the complex and ever-evolving regulatory environments at low cost.

This funding now brings the total investment in 6clicks to \$3 Million since launching in 2019, which will be used to scale operations and expand its customer base in line with its high growth potential.

We are also pleased to announce that Ian Buddery, a successful early-stage-to-exit software entrepreneur, has joined our Board of Directors.

Mr Buddery, who is also a significant investor in 6clicks said, 'I am proud to join this exciting and innovative company, operating in one of the fastest growth sectors worldwide. The successful investment round gives us access to a huge market opportunity, with a highly qualified and experienced team. 6clicks' innovative technology and unique business model represents the first scalable digital solution in a sector that is ripe for disruption'.

6clicks CEO and co-founder Anthony Stevens says, 'These important steps will help us to meet the phenomenal demand for our products in the market. Having investors and advisors of this stature on board gives us access to a wealth of expertise in strategy, operations and innovation, that will prove invaluable as 6clicks enters the next stage of growth'.

We are pumped here in the office. Stay tuned for more good news!

The (rapidly growing) 6clicks global community.
