

# Barracuda Named a Leader in Enterprise Email Security

Sydney, May 21, 2019 — Barracuda, a trusted partner and leading provider for cloud-enabled security solutions, today announced that it has been named a Leader in “The Forrester Wave™: Enterprise Email Security, Q2 2019.” Within the current offering category, Barracuda received the highest score possible in the cloud integration, deployment options, incident response, and support and customer success criteria. Barracuda was specifically cited for offering “an innovative AI-based solution, Sentinel, to protect against phishing and BEC attacks.” Barracuda Forensics and Incident Response builds on this innovation by automating incident investigation, response and remediation. “Cybercriminals use social engineering to launch spear phishing and account takeover attacks that evade traditional email security solutions and manipulate end users for financial gain,” said Asaf Cidon, SVP of Email Protection at Barracuda. “Our innovative technologies protect businesses from these threats. We believe this report recognises how we deliver new ways to support our email security customers, earn their trust, and help them protect their businesses.” The Forrester report states that “customers praise Barracuda’s innovation, its Office 365 integration, and its customer support.”<sup>1</sup> “At Barracuda, it’s our mission to protect and support our customers for life,” said BJ Jenkins, President & CEO at Barracuda. “We’ve been pioneers in the email security space, and our position in this report is, in our opinion, further acknowledgement of our leadership.” A complimentary copy of The Forrester Wave™: Enterprise Email Security, Q2 2019 evaluation is available for download here: <https://www.barracuda.com/EmailWave/> Additional information about Barracuda’s email security offerings can be found here: <https://www.barracuda.com/products/totalemailprotection> Resources Get information about Barracuda Sentinel: <https://www.barracuda.com/products/sentinel> Get information about Barracuda Email Forensics and Incident Response: <https://www.barracuda.com/forensics> Get information about Barracuda PhishLine: <https://www.barracuda.com/products/phishline> Read the blog post: <http://cuda.co/35533> 1 The Forrester Wave™: Enterprise Email Security, Q2 2019 About Barracuda At Barracuda we strive to make the world a safer place. We believe every business deserves access to cloud-enabled, enterprise-grade security solutions that are easy to buy, deploy, and use. We protect email, networks, data and applications with innovative solutions that grow and adapt with our customers’ journey. More than 150,000 organisations worldwide trust Barracuda to protect them — in ways they may not even know they are at risk — so they can focus on taking their business to the next level.
