

Bathroom Renovators Sydney Launches New Laundry & Kitchen Remodel Service

Earlier today, Bathroom Renovator Sydney announced the addition of its new laundry and kitchen and renovation service. This highly experienced team of home improvement contractors decided to offer laundry and kitchen renovations along with their existing complete bathroom remodeling solutions.

The company started out with a focus on bathroom renovations sydney but found that many clients plan to update all of their “utilities” rooms at the same time. Therefore, it makes sense to offer the complete package of kitchen, bathroom and laundry renovations.

Owner at Bathroom Renovator Sydney, says: “We wanted to try something new with our kitchen and bathroom renovators service. Anyone familiar with the home improvements market may have noticed that there are lots of businesses that advertise one price but once you’re in the middle of the project, you find out that there are extra charges that should have been part of the original quote. This gives our industry a bad name. Many of our competitors seem to be more interested in getting the job done to get paid rather than ensuring a professional result.

Our focus is on getting the job done right and within the agreed budget. We want to know that you are completely satisfied and happy with everything that we have done for you. People deserve to know from the start, exactly what they are up for. This includes time and money. It can take a lot out of a person’s life to go through a major renovation. Going over budget and over time can cause a lot of stress in a person’s life. We aim to reduce this stress by sticking to our quote and working to schedule. Having a complete team of experienced contractors, means we aren’t waiting around for someone to finish one bit so we can start on the next phase.”

AU Bathroom Renovations take care of your home as though it is their own. Contractors remove or cover shoes before entering your home, properly clean up after themselves, and guarantee to stay within budget and on time.

We chose to include laundry and kitchen renovations on top of bathrooms because we want to make a renovation as easy as possible for all our clients.

Geoff Simpson also said “We want to give our customers an opportunity to employ one, expert team to renovate their laundry, kitchen and bathroom in one go; without the stress of managing several different teams of renovators.. With our new kitchen and bathroom renovation service, they have the chance to get to know their renovations team and take advantage of our guarantee. We want our clients to have a stress free experience and feel excited to see their new rooms and the difference it will make to their home. Trying something new is always a risk, but it’s a risk we believe is worth taking.”

We have been in business for about 2 years but our team have a combined experience of over 25 years in the industry.. Since Day 1 we have always aimed to be the best in the industry. From every tile, bathtub, shower and vanity, our aim is to leave you feeling happy and excited to enjoy your newly renovated rooms.
