

BDC Services becomes HP Enterprise Business Partner

BDC Services is excited to announce a Business Partnership with HP Enterprise to provide customers with technology and solutions for critical IT infrastructure environments. HP Enterprise makes IT environments more efficient, productive and secure, enabli

The HP Enterprise range covers servers and systems, including rack-optimised servers, as well as data storage, networking and software. HP Enterprise's industry-leading positions in servers, storage, wired and wireless networking, converged systems, software, services and cloud, ensures that BDC Services can provide the right tech solutions for business goals.

The partnership ultimately delivers shared value to customers, with BDC Services leveraging its national lifecycle services to deploy the HP Enterprise product range and make solution sourcing, project management and servicing easier for businesses.
