

Bike Barn and AA Partner to Bring Customers Better Deals Across the Board

Bike Barn has partnered with AA to bring Kiwi customers discounts across their entire range of products, simply by being a registered member with AA. Members are able to show their card while shopping in one of Bike Barn's stores, or they can enter the number online at the checkout to earn a 10% discount on all bikes, or 20% off of parts, accessories, footwear and apparel.

New Zealand's favourite motoring association has partnered with Bike Barn because they believe in creating a more eco-friendly, healthy, sustainable New Zealand. By getting Kiwis onto the roads with a bike instead of a car for their commute, they are helping to drastically reduce emissions across the country. They also believe in helping out with nationwide health by promoting exercise in the great Kiwi outdoors.

Anyone with a membership wanting to buy a bike can enjoy the 10% discount on any products not already on sale. Furthermore, if the 10% discount falls below the price of any bikes for sale in NZ then AA members will pay the lower of the two prices, so they're always getting a good deal no matter what.

For Bike Barn customers who already own a bike and want to keep it in tip-top shape, they can use their AA membership to get a free annual bronze-level bike service (valued at \$69). Their bike will have its gears, brake pads, derailleur hanger and chain checked out by a professional for wear and tear, as well as a frame cleaning to keep rust from building up. This keeps them safe while riding, and also prevents any costly repairs coming up where maintenance could have kept them away.

If you would like to learn more about the AA and Bike Barn collaboration, or if you would like to browse the best online bike shop in NZ, follow the link below.
