

Brent Thomas Recognised as Most Client Focused Engineer Across Australia & New Zealand

Winner of Client Choice Awards

Brisbane, Australia: Calibre Consulting are delighted to announce Brent Thomas has been recognised for his unwavering commitment to clients, receiving The Financial Review Client Choice Award for "Most Client Focused Consulting Engineer". The awards were held last night at the Shangri-La Hotel in Sydney with more than 350 attending the prestigious professional services awards ceremony.

Brent Thomas, National Leader – Civil & Urban, said after the ceremony, "I am passionate about developing innovative, client focused solutions. At Calibre we pride ourselves as being a business partner not just a consultant. It truly is an honour to be recognised by clients, I would like to thank all those that voted".

Brent is a first time nominee at The Financial Review Client Choice Awards. With a career spanning 10 years at Calibre and over 15 years in engineering, Brent leads the Civil & Urban team across Australia.

"It is a testament to our core culture, we pride ourselves collaboration and building long term relationships. The fact the results are determined exclusively from clients, speaks volumes about Brent and his passion to always go one step further," said Calibre Consulting Managing Director, Max Bomben.

Brent is passionate about more than just good design. "It's about knowing that you have positively impacted the way people live, work and spend their leisure time," he said. "As an engineer it's great to know that you are helping deliver projects in partnership with clients."

Max Bomben said that everyone applauds Brent for his recognition for excellent client service. "The entire business is committed to delivering more than technical infrastructure services, our point of difference is all about the client," he said.

According to Brent there's no special secret to delivering excellent client service. "I just listen to clients and try and understand their needs," he said.
