

Bundle & Save: Solar & Pool Heat Pump

Smart Energy Answers (SEA) is offering a Solar & Pool Heat Pump Bundle starting from \$9,870.

SEA is excited to announce a new special offer for customers where they can combine solar panels and a pool heating pump in one affordable, convenient and simple bundle.

What does the limited time offer include?

The bundle is the perfect solution for homeowners offering customers a competitively priced solution meeting the needs for those looking to go solar as well as greener solutions to heat their pool.

Prices start from \$9,870 for our entry-level 6kW solar PV system + 9kW Summer Eco pool heating installed by SEA. The offer is available from now until the 29th February 2020.

Contact SEA on 1300 732 679 or at info@smartenergyanswers.com.au for more information about our terms and conditions.

Which solar panels are eligible?

SEA offers high quality and efficient solar panels from leading manufacturers. Our range of solar panel products includes the LG NeON 2, REC Solar, Seraphim and Canadian Solar.

We're proud to be a CEC Approved Solar Retailer as well as certified installers of Tesla Powerwall, LG Chem and Sonnen batteries. All our products and services are subject to strict quality control to ensure our customers receive the best possible service.

SEA is the number one ranked solar energy solutions provider in Australia*. We've achieved this standard through our dedication to providing energy saving solutions which benefit our customers and demonstrates our commitment to a more sustainable world.

Key Features - Madimack Summer Eco Heat Pump

Madimack is Australian owned and operated, providing high energy-efficient solutions for homes, offices and other commercial spaces. They offer an excellent solution for customers looking for efficient, affordable and greener alternatives to heating their pool.

Madimack's pool heat pumps harvest natural heat from the air, which makes them highly eco-friendly. As they are energy efficient, the cost of running one is relatively low, especially when combined with solar.

Their Summer Eco Series is perfect for energy-conscious minds enabling you to enjoy a relaxing and regenerating swim all year round despite the absence of heat and sunshine. Built with state of the art anti-corrosion casing to last you season after season. The series includes wifi control allowing you to switch your pool temperature and timers whether you're at home or work. The models also come with an industry-leading 4 year warranty on all parts and 25 year warranty on the heat exchanger.

Take advantage of the new Solar & Pool Heat Pump Bundle before the limited time offer ends. For more information, contact us on 1300 732 679 or at info@smartenergyanswers.com.au.
