

# Buy Five, Get One Free - PET Spring Water Bottles on Special at Big Wet

Filtered water specialists Big Wet has a special deal on PET spring water bottles. Customers who buy five packs, will get one free. There are 20, 500ml bottles in one pack and costs \$10. To claim this offer, customers can add a quantity of six into the shopping cart and the cart will automatically apply a discount. The discount will be applied after all details have been added to the order. Discounted pallet rates are available. Pallets are packaged 96 slabs per pallet.

Big Wet sources water from two deep underground springs in picturesque hills of Daylesford Victoria. They control the quality of the natural spring water from source to client and with one of the lowest dissolved solids it has no after taste and is very refreshing. They pump, transport and store spring water in food-grade stainless steel at all times. Big We has 11 litre and 15 litre returnable refillable bottles available. The 12 litre PET (one way) is also available. There are also cases of 24 in 350ml and 600ml bottles.

Filtered water provides an easy, safe, clean alternative to both tap water and bottled water, with very little disruption or effort for the client. The systems are plumbed directly into the home or office water supply by qualified plumbers, so there is no risk of running out of water nor are there heavy bottles to lift. Big Wet filter products and service is available through an easy-to-understand fixed price system, avoiding any surprise bills or hidden costs.

Big Wet believes in providing the best water solution for the customer. In many situations the plumbed in or under bench filter and chiller system provides the best and most convenient solution. They can place clients on a regular monthly delivery cycle and more frequent deliveries can be made by special arrangement.

Big Wets filter division operates nationally servicing almost all corners of Australia, and is the choice supplier for a number of large national corporations. We cover Queensland, Western Australia, Victoria, Australian Capital Territory, New South Wales and South Australia.
