

Buy Latest Jarvis Walker Gen-X Plus Fishing Rods

Buy Latest Jarvis Walker Gen-X Plus fishing rods, online fishing tackle store, fishing gear, affordable prices, best fishing rods

Spin and baitcast anglers will like the responsive yet forgiving graphite composite blanks in the new Jarvis Walker Gen-X Plus rod range.

Gen-X Plus rods feature a modern fast-taper design. The graphite mix is very high for this price point, delivering a lightweight feel and excellent sensitivity suited to many popular lure and bait fishing techniques. Cork grips add to this sensitivity and feel, as do the quality reel seat and guides, which all mix to deliver an affordable range of rods that can improve your casting skills and confidence.

The eight-strong Gen-X Plus rod range also delivers on choice, with three baitcast models that include a nice 6'2" 2-4kg model for estuary flathead, or bass, yellowbelly and cod in freshwater; plus traditional 5'6" baitcasters in 4-6kg and 5-8kg for barra, jacks, threadfin, bass and cod.

There are five spin rods, from the 6'6" 2-4kg and 7'0" 4-6kg in a one-piece format, to the 6'0" and 6'6" 2-4kg, and 7'0" 3-5kg in two-piece. Baitcast or spin, bait or lure, Gen-X Plus rods will deliver the casts you need while leaving plenty of change in your wallet.
