PAT CASH AVAILABLE FOR INTERVIEW FROM PARIS THIS FRIDAY 25TH MAY MORNING SYDNEY TIME

Australian Wimbledon champion and tennis legend Pat Cash is available for interview this Friday 25th May morning time to preview the French Tennis Open that starts on Sunday 27th May in Paris. To interview Pat Cash email max@marksonsparks.com or call Max Markson 0412 501 601

Pat has also taken a lead role in bringing multi-million dollar ketone technology from NASA Astronauts & Navy Seals to Australia and can talk about how this clean fuel source is sweeping the world helping elite athletes and the public achieve peak performance both physically and mentally. Pat Cash says "Having researched and tested ketones extensively both on and off court, there's no question this pure fuel source will take the world by storm... from athletes seeking an extraordinary edge to everyday people optimising their human potential."

LEADING RESEARCHERS REPORT THE RELEASE OF THIS TECHNOLOGY IS THE MOST IMPORTANT DISCOVERY IN THE NUTRITIONAL WORLD THIS CENTURY.

Achieving ketosis for your body through the keto diet is generally quite difficult and not sustainable. In 2009, The US Department of Defence funded \$12Million in scientific research to develop a technology to transform NASA Astronauts and Navy Seals into fully optimised human machines by achieving a state of ketosis in less than 59 minutes, bypassing the diet. Now its available to the public for the very first time.

Champion athlete Pat Cash is one of the early adaptors of ketone technology educating people on the power to optimize human potential simply by shaking something up in water, so absolutely anyone can experience it. Pure therapeutic ketones are already being used by Lebron James, elite basketballers, professional players on the tennis circuit, UFC Champions, Champion Body Builders, Powerlifters, Heavyweight MMA Champions and gold medal winning Olympic Athletes.
