

Cheapest Rubbish Removal in Sydney

Cheapest Load of Rubbish have been providing quality rubbish removal services in Sydney for the past 28 years. We've built a reputable name for ourselves over this time and take tremendous pride in helping Sydney locals remove their rubbish effectively.

Reduce, Reuse, Recycle. When trying to reduce your environmental impact the primary focus should be on reducing the amount of waste generated, followed by reusing anything you possibly can, and finally recycling whatever is left. Recycling rather than discarding prevents thousands of tons of rubbish entering landfill sites every year and saves even more chemical by-products entering the atmosphere when waste is incinerated.

Recycling and reusing are always the best options, however, it's also important to know which items can't be recycled. Mixing non-recyclables with recycling can actually cause more damage as it may result in the entire load becoming contaminated and discarded.

At Cheapest Load of Rubbish, we remove all your junk in an ethical and responsible manner. We are environmentally friendly, that's why we try to re-use, recycle or even donate unwanted junk. Our rubbish removal professionals are experts at sorting out all the junk they pick up, ensuring it is a minimal amount that ends up at the tip. At Cheapest Load of Rubbish, we put the community and environment first.
