

Why buy one present when you can have a gift delivered weekly, monthly or quarterly thanks to Pure Planet Club's plastic-free and tree-free subscription service for toilet tissue and lip balms. A box of toilet tissue may not be a standard gift for mum, dad or the grandparents, but they're sure to be thanking you for never running out again or having to cart it home from the supermarket. Plus an organic, plastic-free lip balm is a great stocking filler! Pure Planet Club are the creators of tree-free and plastic-free toilet paper, household and beauty products. Their mission to save the planet by keeping our oceans clean and forests green began in 2017 with their toilet tissue made from bamboo. In 2019 they launched their first beauty products including organic and plastic-free lip balms.
