

Commercial Furniture Direct Helping Restaurants and Cafes Save Big on Furniture Shopping

Commercial Furniture Direct is the commercial furniture business that belongs to Outdoor Living Direct. The company has been witnessing steady rise in buyer interest which has converted into sales.

John Strahan, owner of Commercial Furniture Direct has been in the furniture business for nearly a decade. John started his first furniture business in 2010 when he opened Outdoor Living Direct. In 2018 John has started his second furniture business – Commercial Furniture Direct. While Outdoor Living Direct is all about outdoor furniture for homes Commercial Furniture Direct does all about furniture for restaurants, cafes, offices, hotels and anyone need hospitality furniture.

It is understandable that upgrading furniture and interiors is a costly affair and owners/investors would like to save as much on the cost as possible. Commercial Furniture Direct is an online furniture store that offers products at the lowest prices possible. Buyers buy direct and stand to save big because this company sources products from Australia and around the world, buy at bulk rates and sells directly on its website.

Many restaurant/ cafe owners would not like to invest very heavily in stuff like furniture though of course they would like very high quality furniture because that's what the customer is going to use. It's here that Commercial Furniture Direct becomes so relevant, they offer high quality furniture made as per Australian standards at affordable prices. The product range includes dining chairs and tables, café furniture, hospitality and restaurant furniture, beanbags, balcony settings, in a range of materials. We have products to suit every area. We even have stuff for inside the house! We source our products from a mix of local and international suppliers, and have cut out a lot of the middlemen, allowing us to offer a full-service retail shopping experience at wholesale prices.
