

## Congratulations To The Female Founders Joining The Advisory Board Centre's Board Essentials Program

A huge congratulations to the 14 Female Founders that have been accepted to be a part of the Advisory Board Centre's Board Essentials Program. The Female Founders will be going through our extensive program to learn how to effectively engage Advisors, best practice foundations on governance structures and how to close the knowledge gap between where they are today and where they want to be in the future. The program is a 1/2 day workshop with the opportunity to connect and network with other female Founders from across Queensland.

The incredible diversity of Female Founders ranged from not-for-profit's to innovative technology startup Founders and everything in between. The Female Founders were from a range of different locations, expertise and mutually shared huge levels of passion and drive which created an extremely supportive, collaborative environment.

The Advisory Board Centre is proud to be partnering with the Queensland Government to support Female Founders in accessing the skills, knowledge and networks they need to increase competitiveness, foster innovation and drive economic impact. The Female Founders Advisory Board Essentials program was held on the 19th of September 2019 with additional dates and applications reopening soon for 2020.

Female Founders is an Advance Queensland initiative and is fully funded by the Queensland Government. Visit our website for more information on the Female Founders Programs and make sure to follow us on LinkedIn to stay updated.
