

Contemporary glass inspires entertaining

Coloured glass adds a fresh accent and sense of fun to any entertaining event. The new Colour Concept series from Villeroy & Boch incorporates tumblers and bowls in an assortment of colours including Midnight Blue, Olive, Turquoise and Burgundy. The sleek conical contours and high glass base of the Colour Concept series is pleasant to handle and extremely versatile. An ideal shape and size to serve a variety of drinks, desserts and snacks, the glassware is well-suited for everyday use and crafted to last. The hand-blown Colour Concept glasses and bowls are produced to the highest quality using the traditional internal-layer technique. The clear glass is layered with coloured glass, followed by a final layer of clear glass, resulting in an attractive finish that retains its rich, flawless colour. Thanks to the glassware's harmonious palette, from cool hues to warm opaques, each table setting can be individually tailored to complement the occasion. Its simple form lends the range to be mixed and matched with both pure white as well as patterned china. Villeroy & Boch Colour Concept glassware is available from selected department stores and the House of Villeroy & Boch, Chatswood (NSW) and Glenside (SA). It can also be purchased online from the Villeroy & Boch e-shop: <http://eshop.villeroy-boch.com/au/>. RRP: from \$32.95 Consumer enquiries: 1800 252 770 or visit www.villeroy-boch.com Media enquiries: Emily Kennedy or Kelly-Anne Gee at Write Away Communication + Events, Ph: 02 9978 1400 or email: emily@writeaway.com.au or kelly@writeaway.com.au
