

Control your coverage with new Custom Complexion range

Real Techniques is excited to launch their highly anticipated brand new Custom Complexion range in Australia. A combination of innovation and practicality presents the 3-in-1 brushes, the newest essential in every makeup collection. There are three custom complexion brushes to choose from; the complexion, cheek and contour brush, which have three settings installed in the base of the brush. Each click will bring you a whole new brush, serving a different purpose for makeup application. This easy-use brush is perfect for those just starting out in makeup and aren't sure where to begin. Erica Galea, Marketing Manager at Chemcorp International says, "These new brushes are pioneering the way we do makeup. The 3-in-1 brush means you pay for one brush and get three, and also gives you more space in your makeup bag for the essentials, more makeup of course!" The brushes are made from synthetic bristles that are 100% cruelty free and easy to clean. They are also fully retractable, so perfect throw on your bag for when you are on the go! The new Real Techniques Custom Complexion range: Slide Complexion Brush | RRP \$27.99 A foundation and concealer brush. Fully customisable for three different coverages. Use Min for a natural base, Mid for an even medium base or Max for a full coverage. Best used with tinted moisturiser, foundation and concealer. Slide Cheek Brush | RRP \$27.99 A blush and highlighter brush. Fully customisable for three different purposes. Use Min for a light flush of colour, Mid for a natural even tone or Max for a vibrant pop of colour. Use with powder or cream blush and highlight. Slide Contour Brush | RRP \$27.99 A bronzer and contouring brush. Fully customisable for three different finishes. Use Min for an all over blend for the face, Mid for framing of forehead and jawline or Max for sculpting cheekbones. Use with powder and/or cream bronzer or contour. The Real Techniques Custom Complexion Range is available now at Priceline stores nationwide or online at www.realtechniques.com.au
