

COVID-19 FREE HAIR LOSS ADVICE AT hairloss.com.au

New free www.hairloss.com.au website established to provide hair loss advice during current pandemic.

COVID-19 FREE HAIR LOSS ADVICE

New free www.hairloss.com.au website established to provide hair loss advice during current pandemic.

COVID-19 victims can lose up to 50% of their hair 3 months after they recover.

Health and well-being is important in managing hair loss and thinning due to COVID-19 restrictions.

Using nutritional supplements and botanical medicine is helpful to support wellness, stress & hair loss.

World's leading medics combine to give free advice.

World leading dermatologist and hair loss specialist Professor Rod Sinclair has combined with a team of Doctors, Trichologists and Medicos from around the world to establish the www.hairloss.com.au website providing free advice and comfort regarding hair loss to victims of the Covid -19 Virus and to those experiencing an increase of anxiety and stress during the current pandemic.

The website explains the technical details behind Febrile Telogen Effluvium (FTE) or acute hair shedding. FTE can result in the victim losing as much as 50% of their hair within 3 months after they recover. The website provides advice regarding treatment and management and the facts.

The www.hairloss.com.au website with advice from the Medical hair loss "dream team" has been created and arranged by Advanced Hair Studio (AHS) as an informational community website regarding hair loss associated with the COVID-19 virus as a way of giving back and supporting the public. Founder and Chairman of AHS Carl Howell has helped some of the world's most famous personalities with their hair loss over the last 40 years including cricket legends Shane Warne, Sourav Ganguly, Jacques Kallis, and Graham Gooch as well as AFL stars Brendon Goddard and Ben Cunnington among others. The AHS sports stars are also spreading the serious message about the hair loss website on social media to comfort and assist the public. AHS is in 15 countries worldwide.
