

## CVENT ANNOUNCES PARTNERSHIP WITH MEETINGS AND EVENTS AUSTRALIA

Cvent's mobile event app CrowdCompass was the official app for the Meetings and Events Australia's 2018 National Conference

Cvent, Inc., a market leader in meetings, events, and hospitality technology was the official app partner for Meetings and Events Australia's (MEA) 2018 Accelerate National Conference. The US-based company, which has offices across the globe including in Australia and Asia, provided full mobile event app support via its CrowdCompass solution for MEA's National Conference this year. Cvent's mobile event app software, CrowdCompass, is one of the industry's largest providers with 12.6 million total app downloads. "This partnership is valuable for Cvent as it has helped us showcase industry-leading mobile event app solutions to MEA's many esteemed members. After a rigorous selection process, MEA's choice of Cvent's CrowdCompass event mobile app speaks to the solution's deep and diverse capabilities," said Cvent Australia Director of Sales, Jack Ukil. "The fact that our points of differentiation stood out so strongly to MEA – especially the app's attendee engagement capabilities – was truly gratifying and we are excited to have offered MEA attendees an enhanced onsite experience at the National Conference." In addition to supplying MEA's mobile event app for their 2018 National Conference, Cvent also supplied exhibitors with its LeadCapture technology which allowed them to scan and rate leads in real time. "In today's digital-first world, great events demand technology that can accommodate all aspects of the event management lifecycle and can effectively engage attendees. We are thrilled to have brought Cvent's event technology to the MEA National Conference and look forward to expanding our presence in the Australia and Asia marketplace," said Ukil. -ENDS- Notes to Editors: Cvent, Inc. is a leading cloud-based enterprise event management company with more than 25,000 customers, 300,000 users, and 3,000 employees worldwide.
