

DDLS becomes Australia's only national 'Google Cloud Authorised Training Partner'.

DDLS brings Google Cloud Certified Training to its classrooms across Australia

Sydney 10 July 2018

DDLS, Australia's leading Information and Communications Technology (ICT) learning provider has completed a rigorous on boarding and assessment process to become Australia's only national 'Google Cloud Authorised Training Partner'. DDLS is part of the EdventureCo group, the leading vocational and professional education and training (VPET) group in the Asia Pacific and a wholly owned subsidiary of ASX listed, Arowana International.

DDLS will be providing Google cloud training from its nationwide training centres in Perth, Brisbane, Sydney, Melbourne, Canberra and Adelaide, and via its telepresence capability. Adding Google cloud training to the portfolio provides significant choice to organisations who need skilled staff to deploy Google Cloud, including Google Cloud in a hybrid solution, or those evaluation cloud platforms.

DDLS will be delivering the \$999 one day Google Cloud Fundamentals: Core Infrastructure course free of charge* into the Australian market to help generate demand for the Architecting with Google Cloud Platform: Infrastructure and Design and Process courses.

The partnership with Google continues the positive momentum that DDLS is experiencing. Earlier in this calendar year, DDLS also became Microsoft's only Gold Learning Partner in Australia and is a training provider under Microsoft's subsidised enterprise class cloud computing training initiative to public sector workers in Australia. The addition of Google Cloud Training will build on DDLS's position as a leading provider of cloud based training in the country.

Jon Lang, CEO for DDLS commented "Use of cloud-based services is no longer the next big thing, but rather, business as usual. With Google Cloud already a leader in the Gartner magic quadrant, helping Australia remove risk and successfully deploy and manage Google Cloud through training is a business priority for DDLS. We are delighted to by this partnership and thank Google for their support."

DDLS is planning to add other Google courses including Data, Machine Learning and Application development in 2019.

About DDLS and EdventureCo

DDLS is 100% owned by EdventureCo, which is a wholly owned subsidiary of ASX listed, Arowana International Limited. EdventureCo is a leading vocational and professional education and training (VPET) group in Australia and is growing into the ASEAN region.

DDLS is Australia's leading, trusted training partner offering learning solutions across IT, process management and professional development. DDLS designs, develops and delivers innovative learning solutions from certification through to customised learning programs to enable clients to confidently deploy technology and effectively manage processes and people for their business growth and success. With national training facilities in Sydney, Melbourne, Brisbane, Perth, Adelaide and Canberra, DDLS provides the highest quality learning programs, Technical Instructors, Trainers and Facilitators to train over 15,000 students a year, from beginner, specialist to advanced levels, transforming their effectiveness.
