

Dental Greetings Offers Flexible Scheduling for Maximum Convenience

Dental Greetings is a dental clinic run by husband and wife duo who aim to provide the best dental services in Banyo & Geebung areas of Brisbane.

Busy schedules and appointment conflicts can seriously interrupt an individual's dental care. The professionals at Dental Greetings understands how hectic life can be and offers highly flexible scheduling options that ensure everyone can receive the care they need. As part of that commitment to clients, Dental Greetings professionals work into the evenings and provide emergency services, even on weekends. The convenient hours are especially advantageous for parents with children in sports programs and other extracurricular activities.

The Banyo dentist makes every effort to ensure that individuals are comfortable, relaxed and calm during each visit. Payment plans are available through Zip Money to help relieve stress on patients' wallets. The practice offers free consultations on implants and Invisalign® cosmetic dentistry, free dental treatment for children, and no-gap zero-pay check up and cleaning packages for client convenience.

Pediatric dentistry is available to identify any potential problems at the earliest sign and ongoing preventative care ensures a healthy smile. The Nundah dentist provides a comprehensive array of restorative services for those with existing problems ranging from root canals and crowns to bridges, fillings and injectables.

Cosmetic treatments restore smiles and can encompass a variety of methods. Implants are one of the most often sought solutions when a tooth has been lost or is unable to be saved. An implant also works to keep surrounding teeth from shifting and aids in maintaining a proper bite.

Invisalign® has eliminated the need for bulky, unattractive, and old-fashioned wire and bracket braces. The modern and highly discreet method of teeth straightening is available at the Wavell Heights dentist and the practice is a certified Invisalign® provider.

For those that aren't good candidates for implants, partial, full, acrylic and chrome dentures are offered along with repair services. Tooth whitening solutions are also available to provide sparkling smiles.

There's no need for anyone to live with pain, damaged, or uneven teeth with the vast number of solutions and available treatments available at Dental Greetings. The flexible scheduling ensures that everyone can receive treatment whether they're working around job demands, school, or family obligations to maintain oral health and an aesthetically pleasing smile.

About Dental Greetings

Founded by a husband and wife duo, Dental Greetings is dedicated to providing a family approach that treats patients with the utmost care and understanding. Dental services are available throughout Virginia, Banyo, Wavell Heights, Boondall, Toombul, Zillmere, Nudgee, Nudgee Beach, Northgate, Nundah, Geebung and all surrounding suburbs on the Brisbane north side. Dental Greetings will change the way you think of dentists and we aim to make any dental phobia a thing of the past. Connect with Dental Greetings on Facebook and Instagram.
